

## Gift a life made bright

Natural and science-backed light therapy solutions for better wellbeing of your people

# Happy employees are productive employees.

Help your people feel energised and positive with our clinically proven light therapy solutions.

## Our corporate service

# For everyday wellbeing

Our focus is on improving your employees' everyday wellbeing, both in and out of their workplace. Lumie sleep/wake up lights are the perfect corporate Christmas present, giving the gift of better sleep and waking. Our SAD and energy lamps deliver effective light therapy for improved focus, alertness, productivity and mood, whether at home or in the office.

## Flexible & personal

The process of working with us is transparent and smooth. You are always in the loop, and we take pride in progressing the project in a timely manner.

We're here to meet your all of your needs, whether it's pricing, order quantity or logistics to deliver the best service and delight your employees.

### Made to last

While many electronic devices become obsolete after a single season, our lights are made to last. We offer the best warranty on the market, and are dedicated to making our products as durable and repairable as possible.

We believe it is not only fair to our customers, but also **better for our planet**.

### Trusted by 1000s

Having partnered with several major gifting brands, we have a proven track record of fulfilling a large number of corporate orders. Our lights have been chosen and trusted by hundreds of thousands of people worldwide.

# Our story

## A trusted light therapy brand that cares for you

Lumie is a **British brand of light therapy devices** with a single purpose: to boost your sense of wellbeing by helping you **feel great during the day and sleep tight every night**. Our products have been carefully developed to deliver the **best user experience and swift results** — right out of the box and for the years to come.

For over three decades we've been specialising in light therapy and light therapy only — we even invented the world's very first wake up light in 1992! We have since spent many years refining and growing our product ranges using the best scientific knowledge available.

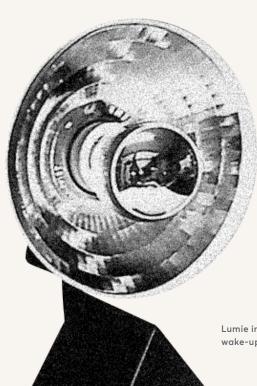

Working to regulate your circadian rhythms, Lumie lights help put you back on the right track in a natural way. Easy, convenient and safe to use, our products continue to deliver on our brand's promise of a life made bright.

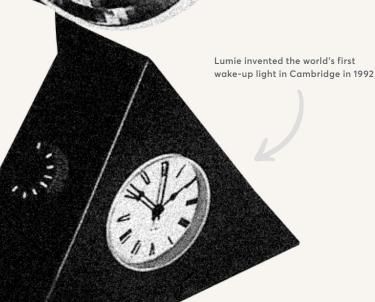

# 30 years of research and development

Lumie has been on a mission to improve the quality of sleep, waking, mood and wellbeing since 1991, helping people with light therapy in a natural, safe and risk-free way.

# Research highlights

Exposure to an artificial morning dawn simulation light linked to improvement in well-being, mood, and cognitive performance.

Effects of artificial dawn and morning blue light on daytime cognitive performance, well-being, cortisol and melatonin levels Chronobiol Int. 2013

Light therapy has been proven effective for the treatment of sleep problems such as circadian rhythm sleep disorders and insomnia.

The effects of light therapy on sleep problems: A systematic review and meta-analysis. Sleep Med Rev. 2015

"Our study confirms the efficacy of using a dawn simulator such as Lumie Bodyclock for treating SAD as an alternative to bright light therapy. Preference for one type of treatment or the other is roughly equal although those with moderate depression tend to prefer bright light therapy."

Dr Konstantin Danilenko

Dawn simulation vs. bright light in seasonal affective disorder: Treatment effects and subjective preference Journal of Affective Disorders, July 2015

## Our clients

Lumie is rated Excellent based on 1,231 reviews on Trustpilot

"The process was transparent, smooth, and timely from the first point of enquiry to the final stage of delivery.

We worked with Lumie to fulfil a corporate Christmas gifting request from a major retail employer for their 12,000 staff. The client and its staff were absolutely delighted with the product. Lumie were flexible and fair in meeting our and the client's delivery and packaging requirements, and most of all were able to fulfil our request with very little notice."

"The service and communication we received was excellent, and on time. The feedback from the client was really positive.

Our client wanted to gift the staff a wellbeing product that was used in the home and could benefit their families. We proposed Lumie Sunrise Alarm, which fitted the budget and also was the right size and weight to be included as the gift in our refreshment box. The Lumie Team were able to supply us with products suitable for different markets (EU/UK plugs), which was perfect."

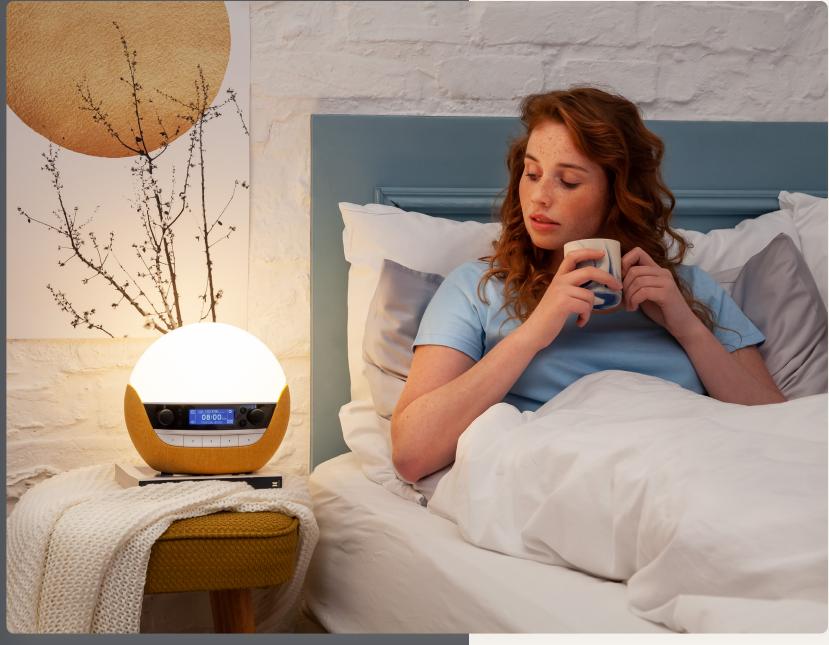

Lumie wake-up lights are like a personal sunrise, a gradually brightening light that gently rouses you from sleep so that you feel naturally wide awake, more energised and ready for the day ahead. At bedtime, a fading sunset creates an environment where sleep comes easily, leaving you rested and refreshed when you next wake.
